

Reproductive Psychiatrist – Outpatient NY

Salary: (\$70,000-\$130,000+) commensurate with discipline, training, and experience

NOTE: This role can be virtual or hybrid based out of our New York City office

[The Motherhood Center](#) (TMC) is a perinatal mood and anxiety disorders center committed to providing support for new and expectant mothers and families. TMC offers the nation's only non-hospital affiliated perinatal partial hospitalization program. In addition, the Center offers outpatient therapy, support groups and education for both patients and providers. The Motherhood Center was co-founded by Catherine Birndorf, M.D, a Cornell-trained reproductive psychiatrist with more than 20 years of experience in perinatal mental health.

Job Summary:

- Demonstrate excellence in psychiatry with expertise in perinatal mood and anxiety disorders (PMADs)
- Provide outpatient care consisting of initial evaluations, consultations, psychotherapy, and medication management for women with psychiatric disorders that are trying to conceive, struggling with fertility issues, experiencing grief and loss, in pregnancy or postpartum
- Work with outpatient treatment teams to ensure the highest quality standard of care for outpatient patients.
- Assist in efforts to ensure clinical standards are in place to meet regulatory requirements
- Effectively monitor and evaluate patient outcomes
- Treat records, correspondence and related items with utmost security and document according to regulatory standards
- Participate in OP staff meeting, supervision, and didactics as well as collaborate with a multidisciplinary team to assess patient care, treatment planning and therapy dynamics
- Complete all documentation and paperwork in a timely fashion and in accordance with TMC standards and policies
- Uphold the highest level of professionalism including attitude, timeliness, HIPAA compliance and confidentiality, treatment frame, boundaries, and adherence to TMC policies
- Embody cultural standards of TMC including respect, kindness, collaboration, accountability and collegiality
- Perform other job-related duties as required by the Medical and Clinical Directors

Qualifications:

- BE/BC to practice adult psychiatry in New York State (New Jersey/Connecticut a plus):
- 4 years of clinical experience required;
- Experience in postpartum psychiatric disorders, maternal-child health and issues of women's health care preferred but not mandatory;
- Proficiency in using Electronic Medical Records, required;

- Strong leadership skills;
- Desire to work within a multidisciplinary team;
- Familiarity with IPT, DBT, CBT, Dyadic Therapy and other best practices for the PMAD population;
- Microsoft Office proficiency;
- Highly organized and detail oriented;
- Excellent oral and written communication as well as presentation skills;
- Ability to be flexible, collaborative and able to multi-task
- Have and maintain your own malpractice insurance

How to apply:
